IKEA®

Making dream kitchens for you

We've been developing kitchens for nearly 50 years now. It's been a fantastic journey of learning, listening to people, testing and always aiming higher to meet people's idea of a dream kitchen. We design them to be tough, work optimally and feel good for you to spend time in for many years to come. And, for this to happen, quality has to be as important as style and function. In fact, we are so confident of the quality of our SEKTION kitchens, we offer you a free 25-year limited warranty to prove it.

A kitchen that lasts, and works for you in your everyday life, should also be a smart kitchen that makes it possible for you to take the steps you want to live more sustainably. This is why we offer waste sorting solutions, faucets that help you save water and appliances that are energy efficient. They may seem like small things, but that's the beauty of small actions – they all add up. And the best part? You'll not only be saving the planet's resources, but these are solutions that help you save money, too.

With our IKEA kitchens, you also have the freedom to design your own price tag. Not just because they're so customizable, but also by choosing the level of services you need. Whatever you decide, we offer full support before, during and after purchase.

Creating a better everyday life for the many people is the IKEA vision and we always strive towards making simple, daily activities a true joy. And to bring beauty and function together at a price that makes a dream kitchen affordable for you.

IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.
